Computer Science, Engineer degree
*Faculty of Fundamental Problems
of Technology, Wrocław University
of Science and Technology*
2017 - 2021

About Me

I am a programmer who likes solving complex problems using software solutions and creating programs that tackle real-world challenges. I possess strong communication skills and enjoy interacting with clients. My coding philosophy revolves around writing well-tested, clear, and readable code to ensure maintainability and enhance collaboration within development teams.

Professional Experience

Backend Engineer | Tivix (full-time)
May 2022 - onwards

- Developing new features and applications from scratch and integrating already existing solutions
- Ensuring high code quality by writing both, unit and integrations tests, and using best code practices
- Creating test cases, specifications, requirements, and traceability
- Providing clients with valuable technical advice and guidance to enhance their applications

Programming Mentor | Kodilla (part-time)
May 2022 - November 2022

- Training and mentoring junior programmers (programming methodologies, best practices)
- Reviewing code

Software Engineer | Nokia
July 2019 - May 2022

- Developing, debugging, deployment and maintenance of frameworks and tools for software and test teams
- Working as a part of international, self-organized teams following Scrum and Agile methodologies
- Creating documentation

Hobbies

- Plants
- Board games
- Running

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
